(Spouses-S, Employees-E)

Some speakers were poor. No doubt knowledgeable, but not good speakers. Most were Good. (E)

Good. If spouses are allowed, how about getting the word around. (E)

Most objectives were met fairly well. (E)

I felt that it was too general. A lot of the information left me wondering. (E)

It has changed my views, but only to sharpen my awareness that there is no luxury assignment and should not be taken as a vacation, work assignment. (E)

Apprehensive. (E)

I have my doubts as to the usefulness of having a family along in high risk areas. For that matter, taking them overseas at all any more or their willingness to go. (E)

Made me much more aware of the threat of terrorism and what I should do about it. Much more security-minded. (E)

Yes, it has made me more aware and alert and to be prepared in any unforeseen circumstances. (E)

Additional Comments:

May I suggest a nonsmoking section of the meeting area? (E)
