3899-69

6 June 1969

MEMORANDUM FOR: DD/ORD

ATTENTION : C/PC

SUBJECT : Improved Scintillation Crystals for
Gamma Ray Detection and Spectroscopy

REQUIREMENT DESIGNATION: T-V-4-69

1. The requirement involved a search for more sensitive, more effective, or otherwise improved scintillation crystals than those presently available.

2. Based on the results of efforts expended and recent discussions in TSD no new efforts appear justified. It is the purpose of this memo to discontinue the requirement.
