1 August 1968

MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : CIA-DIA Reply to Supplementary Warnke Question

1. General Carroll may also raise at USIB today the subject of the response to the supplementary question on ABM launcher refire capability posed by Warnke. General Carroll has a draft reply, based in part on a CIA draft, which he has sent us and is attached.

2. Our only reservation with this draft is the last sentence of the first paragraph. The sentence strikes us as unnecessary to the response requested. If retained, the words "two minutes" should be changed to "five minutes or less." This would reflect CIA views as well as the views given a DIA study published in February of this year.
