The Honorable Gerard C. Smith  
The Director, US Arms Control  
and Disarmament Agency  
Department of State  
Washington, D. C.

Dear Mr. Smith

At the Steering Committee meeting on  
28 May 1969, Mr. Packard asked me to have  
the Verification Panel sit down with a  
representative from DDR&E to review the  
question of the US ability to monitor Soviet  
compliance with a MIRV test ban.

That has been done and I forward the  
results of that review by the Verification  
Panel for such further action as you deem  
necessary.

Sincerely,

BRUCE C. CLARKE, Jr.  
Director  
Strategic Research
