29 April 1969

MEMORANDUM FOR: Mr. John Maury

SUBJECT : Unclassified Statement on USSR
Military Posture

1. The document prepared for Congressman Lipscomb last July has been revised as he requested.

2. In discussing this revised version with the Congressman you may wish to reiterate:

a. The document is unclassified in the sense that the discussion can be generally attributed to sources in the public domain. Of course, our knowledge from classified sources makes it possible for us to use some public sources and reject others. This fact underscores the importance we place on there being no attribution of this to the Agency.

b. The paper has not been coordinated except in the most informal sense and cannot be considered a Community statement.

3. We are ready to lend you any further assistance you may require.
