MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT : COMIREX Report on High-Altitude Photographic Coverage of Cuba 12 May - 6 July 1969

REFERENCES : a. USIB-D-41.14/305, (COMOR-D-24/203)

13 May 1969, limited distribution

1. Attached is the Committee on Imagery Requirements and Exploitation (COMIREX) report on high-altitude photographic coverage of Cuba for the period 12 May - 6 July 1969, which is circulated for the information of the United States Intelligence Board (USIB).

2. COMIREX advises that normal reconnaissance of Cuba was resumed in late May after the standown imposed in mid-April was lifted (reference b.). Since reconnaissance was resumed, a satisfactory level of coverage has been achieved and it is expected this level of accomplishment can be maintained.

3. It is not planned to schedule this report on the USIB agenda for discussion unless specifically requested by a Board Member to do so prior to close of business on 21 July. In the absence of such a request, it will be considered for record purposes that USIB "noted" the subject report on that date.

MEMORANDUM FOR: United States Intelligence Board

SUBJECT: COMIREX Report on High-Altitude Photographic Coverage of Cuba 12 May - 6 July 1969

REFERENCE: USIB-D-41.14/305 (COMOR-D-24/203)

1. The current USIB requirement for photographic coverage of Cuba calls for a report on the percentage of area coverage and the target category sampling over a 56-day period. The attached tables show the number of missions flown, the percentage of area coverage, and the target sampling average for a two-week period. The current report is for the period 12 May - 6 July 1969.

2. Normal reconnaissance of Cuba was resumed in late May after the standdown imposed in mid-April was lifted. Since reconnaissance was resumed, a satisfactory level of coverage has been achieved and it is expected this level of accomplishment can be maintained.

3. During this period no activity was observed which might indicate an attempt to reintroduce or deploy offensive weapons systems in Cuba.

4. The USIB requirement was fulfilled and it is recommended that the Board note this report.
