

S-E-C-R-E-T

CWG-D-1/1
18 September 1963

MEMORANDUM FOR: COMOR Photo Working Group

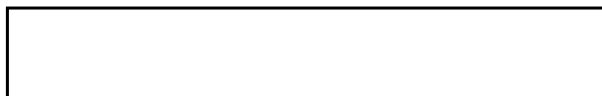

SUBJECT: Targets for Color Photography in Cuba

REFERENCES: USIB-D-41.5/39 (COMOR-D-24/31, 21 Nov 63)
USIB-D-41.14/47 (COMOR-D-24/62, 10 Jun 63)

1. Research and development in color photography are approaching the point at which experiments over actual targets are contemplated. The first application will be in high-altitude reconnaissance of Cuba. Earlier COMOR and USIB recommendations regarding color photography are contained in the referenced documents. These recommendations, however, have not been recently reviewed in the light of intelligence developments and do not necessarily relate to high-altitude acquisition.

2. It is requested that the members of the Working Group review the referenced documents and the attached DIA listing and be prepared at the meeting of 24 September to discuss what kinds of Cuban targets are appropriate for high-altitude color reconnaissance, which targets are of current intelligence interest, and which should receive priority attention.
