MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT : National Intelligence Survey (NIS)
Production Schedule for FY 1971

REFERENCE: USIB-M-504, 11 April 1968

1. In accordance with the reference, the NIS Committee submits herewith the NIS Production Schedule for FY 1971.

2. Manpower and budgetary restrictions in DIA and CIA continue to affect NIS production planning. Except for Manufacturing and Construction and Electric Power, all detailed economic sections have been discontinued. Subversion and Insurgency coverage (formerly Section 57, now discontinued) will be integrated into the General Survey as Section 9 (Insurgency Threat) for areas in which there is considered to be a potential for serious antiregime violence.

3. Production of General Surveys for FY 1971 continues at 30; however, 93 detailed sections are scheduled, representing a 31% reduction from that for FY 1970.
