## MEMORANDUM

SUBJECT: Operations Center Support for Mr. Knoche

The Operations Center has been asked to provide relevant cable traffic to Mr. Knoche, effective immediately. (Mr. Knoche will receive his copies of the President's Daily Brief, National Intelligence Daily and other publications via OCI's Registry and copies of restricted Ops cables from the EA/DDO.)

25X1A The duty officers need not be constrained in their selection by any "threshold" hang-up since Mr. Knoche's EA [ ] will screen everything going to him. The DDCI/CIA should receive everything that goes to the DCI or Admiral Murphy. Beyond that he should receive cables selected for the Director's Cable Summary, Sitrep cables on Lebanon, etc., State's Morning Highlights. The duty officers should pass Mr. Knoche's cables during business hours, rather than allowing them to accumulate.

After hours, Mr. Knoche takes the view that he need not be awakened unless a development is actionable. But he does not wish to be surprised, either; when overnight developments warrant, the duty officers should alert the DDCI/CIA at 0645 or thereabouts.
