22. [] LIAISON Because of conflicting information, I called Bill Miller, Staff Director, Senate Select Committee on Intelligence, to get as firm a list as possible of the subjects to be covered in the 23 September DCI briefing. Miller gave me such a list. I mentioned to Miller my discussion with Don Sanders, also of the Committee staff, and Miller indicated he believed the Theodore Shackley, Acting DDO, interview would be the last phase of the Committee's investigation.

I also told Miller that at [] request, I was sending him our STAT first attempt at drafting a Reorganization Plan. This was sent later in the day by special courier.
