3. (Unclassified [Redacted] LIAISON Met with Hal Ford, Senate Select  
 Committee on Intelligence staff, and told him the "soft" file materials which  
 Richard Pipes had used in his B Team study had been destroyed and that we  
 would have to go to the original files to find the documents. As a result, I  
 would need more specific indication of the papers Pipes wants to see. Ford  
 gave me two suggestions and I also received some ideas from Ted Ralston,  
 also of the Committee staff, when I later discussed this with him.

4. (Unclassified [redacted] LIAISON Ted Ralston, Senate Select Committee on Intelligence staff, called to say Richard Pipes, chief of one of the "B Teams", had reviewed the Senate Select Committee on Intelligence report on the A Team-B Team last week and had asked to see some of the background material he had used in preparation of the B Team report. Pipes had hoped to receive the material tomorrow but I advised Ralston this was not practical because I thought the request would have to be brought to the DCI's personal attention. I did agree to attempt to resolve this matter by the end of this week. Later, Ralston called back to inform me that Hal Ford, of the Committee staff, had raised this question directly with Dr. Bowie, D/DCI/NI, and that Dr. Bowie had indicated he had no objection to showing this material to Pipes as long as the request was restricted to material he had used before.
