**MEMORANDUM FOR: Members, Guided Missile and Astronautics
Intelligence Committee**

**SUBJECT : GMAIC Assignment of Tasks for Preparation
of Inputs to JCS Supplementary Collection
Operations Plan**

**REFERENCE : a. J3M-1-62 JRC dated 9 January 1962
b. SS#201004 dated 10 January 1962**

There has been some objection to paragraph 3, reference b. In discussion with JRC personnel it is evident that to provide JRC drafters with sufficient background to prepare a meaningful collection plan, the thrust of paragraph 3 must be toned down. In other words it is important that contributions comply insofar as practicable with the outline previously provided. The security aspects will be duly considered by GMAIC prior to publication of the plan and proper safeguards will be applied either through omission of certain data at the time the plan is prepared or by limiting its distribution.
