

21 July 1955

Memorandum for: Mr. Allan Evans,  
etc.

Subject: Additional Questions on NIE 11-11-55: Some Implications  
for the USSR of a System of International Armaments Inspection

1. Pursuant to a request by G-2 for an SNIE on Soviet ability to evade arms limitations, the IAC agreed on 19 July that this subject could be covered in a preliminary way in NIE 11-11-55. It was also suggested at the IAC meeting that a few general paragraphs on this subject were the most that could be undertaken at this time and that a more detailed analysis could be undertaken later.

2. In view of the above IAC decision, it is requested that your contributions to NIE 11-11-55 include whatever general observations you feel able to make at this stage on the evasion problem. We recognize that relatively little analysis can be made of this problem until the nature of proposed arms limitations and inspection provisions are spelled out in more detail.

3. Contributions to NIE 11-11 are due 1 August, and the target date to the IAC is 30 August. However, if necessary the due date for this supplementary contribution can be postponed to no later than 4 August.

PAUL A. BOREL  
Deputy Assistant Director  
National Estimates
