FOREWORD

This list provides information on the availability of plans of selected cities in the USSR and Communist China. It includes city plans that have been published, are in compilation, or are planned, as well as supplementary information on the classification, scale, authority, CIA map number or Map Library accession number, and publication date or production status of each plan. Most of these city plans were published during the past 5 years [REDACTED]

25X1X4

25X1X4

[REDACTED] but a few others that are suitable for use in the project have been included. In most cases the published plans that are included in this list provide the best coverage available for intelligence purposes. Users of the list are cautioned, however, that it is not to be considered all inclusive; additional coverage may be available from any of the several map repositories in the Intelligence Community.

The published plans are available from the Central Intelligence Agency Map Library, Reference Branch, Code 143, extension 2688. Retention copies of plans printed by CIA can usually be provided to requesters. These plans are identified on the list by a 5-digit number or a 5-digit number followed by a decimal. Plans identified by a 6-digit number are not printed by the Central Intelligence Agency and are available on loan only. Information on the availability of plans that are partly completed or that have been suspended will be supplied by the CIA Map Library upon request.

* The name of the city is given as it appears in the title on the plan. Because many cities have been renamed since this project was started, the new names have been inserted alphabetically and cross-referenced to the plan that provides coverage.

** The date of publication or, for those plans not yet published, the status of production is as of 1 June 1963.

*** A dash indicates that either the number or the classification of the map, or both, have not yet been assigned.

+ A plus sign preceding the name indicates that the city plan listed is annotated.
