INTELLIGENCE MEMORANDUM

The India-Pakistan Situation  
(Report #67 - As of 6:00 A.M. EDT)

1. An Indian spokesman said last night that Pakistani troops crossed into Indian-held Kashmir some 90 miles northwest of Jammu and dug into position. There is no confirmation of this or other reported minor incidents along the Kashmir front, but claims and counterclaims of this nature can be expected in future weeks.

2. Soviet delegate to the UN Fedorenko yesterday protested Thant's action in recruiting additional personnel for supervision of the cease-fire on the subcontinent as well as the estimated expenditure of \$1.6 million for this purpose. Fedorenko claims that both the assignment of new personnel and the concomitant expenditures require specific Security Council authorization.

3.

military works, and are "concentrating heavy armed forces with the aim of intruding into Chinese territory." The report adds that the Chinese frontier guards are closely watching the Indians "for aggression." Statements of this nature seem designed to warn the Indians that the border issue can be reopened at any time.
