Location: The I-Ilang Army Barracks (Areas 1-3) are located approximately 0.5 mi northwest of the city of I-Ilang. The three barracks areas are located in the immediate vicinity of I-Ilang Vehicle Maintenance Facility (see Figure 1).

25X1

General: This report is based on a chronological study utilizing the earliest coverage and all subsequent high-resolution photography of the installation. The number in parenthesis after dimensions (e.g., 7w) indicates the estimated building capacity for wheeled vehicles. Square footage is shown for barracks, quarters, messhalls and storage facilities.

The I-Ilang Army Barracks consists of three areas which appear to be related due to their proximity to each other and the interconnecting road network.

Area 1 (Figure 2) appears to have a headquarters function, Area 2 (Figure 3) appears to be a support facility, and Area 3 (Figure 4) contains two billeting subareas. Area 2 is the least military in appearance of the three areas, but it is the only area in which military equipment (AAA pieces) has been observed.
