Dear Ed:

I understand that you were in the Chamber of Commerce Building renewing old acquaintances and performing some missionary work for ERDA on 1 May. As usual, your audience was exceptionally appreciative, and all members of the CIA Senior Seminar declared the session as first-rate.

From all reports, ERDA has formidable challenges confronting it. I do not know how many of the Seminar became converts to nuclear power, but they emerged with a strong feeling that nuclear generating plants appear to be the only way out of our energy dilemma.

Thank you very much for taking time to participate in the Seminar.

Sincerely,

*rs/ Jack*
