- 7. The battalies is not arised a battalies is with passenger cars, four shop cars. It also has wood and metal pontoons, with some modern aluminum material, wooden bridging material, material for suspension bridges and foot bridges, movable cranes, rubber boats, assault boats with both built in and outboard motors, compressors, pile-drivers, drills, rollers, steam shovels, and generators.
- 8. Engineer Barracks No. II is on Bajcsi-Zsilinszky Gasse, near the AAA Barracks. It is occupied by a motorized engineer battalion belonging to a division located in the southern part of the great Hungarian plain. The battalion has 650 to 670 men, with dark green shoulder boards and insignia.
- 9. There is no engineer material at the barracks, the battalion's equipment being stored near the bridge and the exercise area along the Danuba. The auto park is at the barracks and consists of twelve tractors, six half-tracks, twenty-five 3-ton trucks, two passenger cars, three jeeps, four shop cars.
- 10. The engineer camp and exercise area is near the railroad bridge over the Danube, north of Baja. There are numerous wooden harveeds bill Batablished at the place are two workshops, with 85 to 90 mechanics and other workers and a guard company of 80 to 90 men. The camp contains a large number of tools, boats and engineer equipment of all sorts. Attached to the camp are four passenger cars, two traveling oranes and a jeep.
- 11. Near Ersekesandd_sig/ there is a permanent training camp for technical troops and engineers. The troops sent to it come mostly for basic engineer training. They are organized into provisional formstions.corner of Hajhalo and Mzsa György Streets.
