	The Tauentzien Keserne is believed to be occupied by (1) the 977th	
	Independent Sig Bn of the LXXIX Mtz Rifle Corps having Major Manin (fnu) as supply officer who was reported previously: (2) an engineer	
	unit, probably the 338th Engr Bn of the 207th Mtz Rifle Div which, on the basis of rather vague indications had previously been carried	
	in Tangermuende although it is also possible that Tangermuerde may be the location of an engineer equipment depot storing equipment in	
	winter which is used at the Bittkau engineer training ground in summer; and by (3) a motor transport unit which was previously	
	stationed in the stock yard on Haferbreiter Weg and which is commanded	
	by Captain Korolev who is known from previous reports. In July 1952, a signal unit equipped with radar equipment in	25X
	the Remonte Schule in Gardelegen. This unit was possibly retransferred to Stendal. It is doubted that this unit	25X
	should be a component of the 977th Sig Bn because of the radar equipment. It is believed that the unit of Lieutenant Colonel Kres which	
	is quartered in the Albrecht der Baer Kaserne includes the 16th Tank SP Regt of the 207th Mtz Rifle Div. A previous report	25 X
	indicated that the motor transport unit of Captain Frolenko had been transferred to Quedlinburg along with the 597th Mtz Rifle Rect: this	. 207
	is implied by the present report.	25 X
	Comment,	
	The Base No 9 probably is the commercial section of the 19th Gds Mecz Div. Senior Lieutenant Zolo-	
	tukhin was previously reported For layout of numbered camps, see Annex.	25X
	Comment. The installations in Peckfitz, Buchhorst and Kloetze	25X
	are believed to quarter elements of the 598th Mtz Fifle Regt of the 207th Mtz Rifle Div. Buchhorst, however,	25X
	was reported for the first time. Peckfitz possibly quarters the	20/
	regimental headquarters or it is at least expected that this head- quarters will be transferred to Peckfitz upon completion of all	
Γ	local installations,	25 X 1
	Comment. Major Pelevin was previously mentioned as holding this assignment.	25X1
