The present information tends to indicate that the regiment is possibly quartered in the Adolf Hitler Kaserne. Comment. It is believed that 25X1C with Colonel Lebedev (fnu) who was previously reported belongs to an artillery unit in Ludwigslust. to the Hq 18th Mecz Div in Perleberg. Although source repeatedly reported a unit in Ludwigslust, it does not appear plausible that an artillery unit should be quartered in Ludwigslust. Colonel Baladin (fnu) was repeatedly reported in connection with 25X1C the unit. the 592d Mort Regt of the 18th Mecz Div prior to 1 December 1952. Observations of arms, however, indicated that upon return from summer practices the regiment was stationed in Perleberg rather then Ludwigslust. Colonel Dranslenko (fmu) was previously reported by the same source in connection with this unit.
