[REDACTED]

The following is a tabulation of rail fuel shipments entering or leaving East Germany from 1 through 30 November 1952. The tabulation is based on reports furnished by [REDACTED] who obtained their information from [REDACTED] through personal observation.

25X1

All the shipments listed were included in previous reports on rail traffic through East German border stations. As far as possible, double reporting of shipments was eliminated. The tabulation is incomplete, because two regular sources did not submit any reports during the reported period.
