Approved For Release 2009/09/21 : CIA-RDP80-00810A000900530010-3 SECRET/CONTROL - U.S. OFFICIAIS ONLY 25X1 - 3 -25X1 Comment. Elements of the 94th Gds Mtz Rifle Div from the above 5. mentioned barracks installations were probably involved in field exercises of the IX Mtz Rifle Corps in the area of Schwerin-Wittstock from 10 to 14 25X1 As the troops had not returned by 19 February, February it is possible that they used the return movement for small exercises, such as winter bivouacks, practice marches, etc. No comments can be made for the tanks in the Adolf Hitler Kaserne. Possibly, several T-34s belong to the 286th Gds Mtz "ifle Regt of the above mentioned division. The appearance of a large tank unit in the installation is plausible only during the field exercises; 25X1 25X1 Commenta Units of the 6th Arty Div from the three Wald Kasernen have been 6。 rotated to various winter exercises in East Germany since 9 February. The installations are believed to have therefore been only partially occupied since that time. 25X1 the AT artillery column 70, Comment. belongs to the 6th Gds Mecz Div. 25X1 the shipment at Comment :8° (Malchin railroad station probably carried AT artillery units of the Third Shock Army. Possibly, the train was bound for Schwerin. The train at the 25X1 Neustrelitz railroad station presumably carried artillery units of the 9th Gds went to Luckenwalde for Tank Div which, combat firing practice 25X1 units of the 19th Gds Mecz Div from the Commento 9. Herrenkrug-Anger Kaserne moved out on 25 February, presumably for winter exercises. The present report tends to indicate that the 63d Gds Mecz Regt of 25X1 the division from the Nachrichten Kaserne and the 36th Pon Bridge Regt of the GOFG from the Seeckt Kaserne were at their quarters on 24 February 1953 25X1 25X1 10.
