25X1

1. Some groups of Chinese workers have been assigned to the V. I. Lenin Works in Pilsen. They receive special treatment, including a rate of pay 25% higher than that of Czech workers in the same category.
2. Although the authorities are doing everything possible through propaganda to obtain the approval of the public for the presence of the Chinese workers, they are resented and made to feel uncomfortable by the Czechs because of the larger pay they receive.
3. The employment of Chinese workers in Czechoslovakia is allegedly a part of the general Soviet plan, according to which the more advanced satellite nations are to instruct the less advanced workers of the Soviet Orbit in their factories.
