Production figures at the Funkwerk (Sachsenwerk) Radeberg for March are the same as those for February. The factory is, for the most part, making oscillographs of various sizes. The Phaenomen Works in Zittau delivered twenty-one radio apparatus. Transmitters of 100-watt strength only were constructed. Production of carrier frequency apparatus remains unaltered. An apparatus constructed to Soviet plans and used for locating line breaks is also made here. The iconoscope is divided into squares, with measurement numbers at the edge. Six of these are made each month. Thirty-four Stuttgart apparatuses with replacement parts were delivered to the apparatus depot at Bad Saarow on Scharmustetzelsee.
