25X1

Parndorf

- Four single-rod radio masts, each about 5 meters high, stand on the airfield near the road to Neudorf opposite the last houses of Parndorf village. There is a small wooden hut in the center of the square formed by the 4 masts.
- A radar set is situated about 50 meters south of the road to Neudorf, 500 meters from the cross-roads in Parndorf village.

Sketch:

A van with a boxlike superstructure was parked near the set.

- 2 -

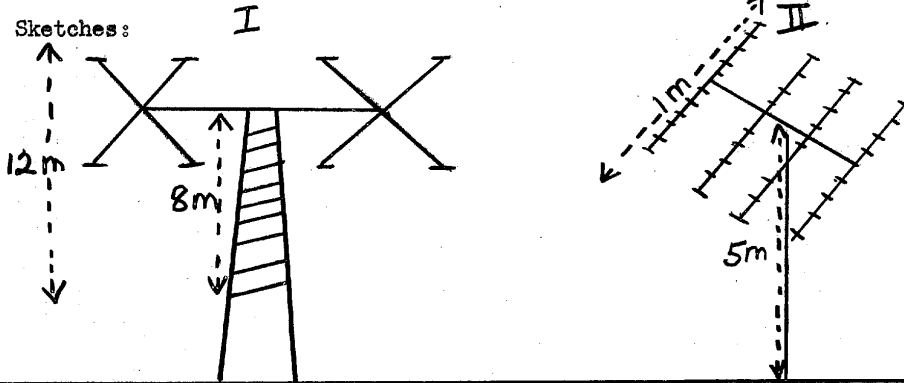

- 3. Sketch of the radar set, standing approximately 40 meters east of the X-shaped set in the northern part of Parndorf airfield:

Wiener Neustadt

- 4. Two radar sets are located in the "Tritol" factory area, near the western side of the fence surrounding the factory, and close to some wooden huts. The factory itself is 2 Kms. east of the Theresienfeld railroad station (Lat. 47°51' 20". Long. 16° 16' 33" East).

Sketches:

- 5. On 26 January 1953, set I was standing in a N - S direction. This set seems to be of the same type as that located in Deutsch-Wagram and Parndorf, but larger than the latter. It was not possible to determine the exact number of horizontal rods on set II, but there are believed be four. The sets were seen from a distance of about 400 meters.

Comment: Photographs taken of the radar set described in paragraph 2 above confirm that it is a Knife-Rest.
