<u>Comments</u> This office also believes that the VPL technical department, which is also referred to as VPL construction headquarters, is not subordinate to the Soviet construction headquarters in Werder. The believes a department, moreover, is subordinate to the Hauptabtellung Ruscawaertige Dienste (Main Department Rear Services) at the VPL headquarters, while the Soviet construction staff in Werder is believed to be subtrdinate to the Rear Services Department of the Twenty-Fourth Air Armey. Is the two headquarters have similar missions, it is possible that they primtain close liaison.
