1. A hospital to accommodate 400 patients was under construction at Nowa Huta, Krakow, for workers of this industrial area. The surgical and internal diseases sections, with 200 beds, was to be ready by the end of 1953.
2. With the object of increasing the employment of women in institutions subordinate to the Ministry of Health, men are now being dismissed from services in which they can be replaced by women. The men concerned are all in good health and are not over 45 years of age. They are allocated to industry. At the same time, the number of men who may be admitted to mixed professional schools (male nurses, assistants to chemists and radiologists etc.) which are administered by the Ministry of Health, has been limited to a maximum of 20%. In schools for feldshers (felczerskie), the number of male students may not exceed 70%.
