	troops wearing red-bordered black epaulets, mostly with tank insignis; and abou	
	officers also with tank insignia. About 95 percent of the windows of the instal	lation
	were lighted after nightfall. Ranking officer was a colonel.  two units of the same service color were stationed in the installation, wi	25X1
L	one unit being smaller than the other. A semi-underground shelter with two ante	nna 25X1
	masts had been built outside the installation, immediately on the southern wall	0
	At 2 p.m. on 17 December, 4 T-34/85 tanks carrying each 1 officer and a total of 13 EM wearing red-bordered black exaulets entered the installation. Reports of	ī
	tank guns were heard from the training area on the fulsnitz River prior to 2 p.	m <sub>o</sub>
	Four T-34/85 tanks subsequently drove under the lean-	
•	roof located there. A BA-54 armored scout car was seen under the lear-to roof.	
6,	Between 17 December 1953 and 2 January 1954, the Nachrichten Schule was occupie	d
	by about 600 to 700 troops wearing red-bordered black epaulets, including at le	ast
	30 percent with tank insignia. Equipment with heavy weapons included at least 3 T-34 tanks. On 17, 19 and 20 December, 2 to 3 T-34 tanks practiced driving in t	U ha
	Aue. Tank crews were repeatedly relieved during a day. In the morning on 22 and	
	December, about 10 to 15 T-34 tanks left the installation toward Neues Lager.

	of the 11th Gds. Tank Div in the Nachrichten Schule The small unit of the same service color mantioned in paragraph 4 vaguely indicates the unidentified	8
	tank training battalion. No indications for the 270th Gds Mort Regt have been	
	received since October 1953,	
2.	Comment. Altes Lager is apparently occupied by small supply units, in	25X1
	addition to the fuel depot stationed there.

3.	Comment. The occupation of Neues Lager remains undetermined.	
	The officer names are reported for the first time.
