25X1

1. The plan of adapting the machine industry in Poland to Soviet models will include the rocket producing industry. The rocket industry is, in fact, already in the process of construction. The center of this industry will be the reconstructed Special Chemical Establishment at Skarszysk (Specjalne Zaklady Chemiczne w Skarszysku) in the district of Kielce near the city of Kielce.¹
2. At the present time a rocket industry "combine" (kombajn) is being formed which will include three chemical establishments, namely, the Special Chemical Establishment at Skarszysk, another at Wolow (N 51 06, E 20 48), about five kilometers southwest of Skarszysk, and a third at Blisyn (N 51 07, E 20 45), which is about one and a half kilometers west of Wolow. The latter two chemical establishments are being built near the railway line which leads from Konskie (N 51 12, E 20 25) to Skarszysk. Since the establishments are still under construction, rockets have not yet been produced.
3. The machines, tools and other equipment for the rocket industry have been obtained from two factories in East Germany, the R. Wolf A.G. in Buckau² and the Elektroden und Maschinen factory in Finsterwalde³.

25X1

Comments:

probably means Skarszysko Kamienna (R 52/u 96).

2. Probably Schwermaschinenbau Karl Liebknecht, formerly Buckau-Wolf.
3. Probably VVB VEM Kjellberg Elektroden und Maschinen, Breitscheidstrasse 75, Finsterwalde/Nieder-Lausitz, Brandenburg.
