Comment. A total of 48 tanks were completely overhauled at the plant in February and March 1954. This amount is on about the same level as that of July, August and September 1953. The receiving stations are posts of tank units. The delivery of spare parts to the following tank repair shops of the six armies is noteworthy:

- Altuedersdorf - Second Gds Mech Army
- Kummersdorf - Third Gds Mech Army
- Dresden-Neustadt - First Gds Mech Army
- Ziesar, - Third Shock Army
- Finow, - Fourth Gds Mech Army
- Hohenstein-Ernstthal, - Eighth Gds Army.
