*	CLASSIFICATION SECRET/OCTROX	25
OCUNTRY TOPIC	Fast Germany / Rilitary Information from the Zossen-Wuensde	REPORT
EVALUATION_		25 25
	EDDATE PREPARED	D 11 June 1954 640453
	2 ENCLOSURES (NO. & TYPE)	25
	This is UNEVALUATED	
		25X1

- 1. Between 12 and 30 May 1954, the Eisenbahnpionier Kaserne (3381) was occupied by about 2,000 troops wearing red-bordered black and black epaulets. On 13 May, 30 guns of various calibers, including 10 x 76.2-mm AA guns; and 2 tie-removing machines were seen in the installation. Source noted that vehicular traffic was unusually light after 18 May. All motor vehicles were being maintenanced. Thirty-five to 40 trucks were on blocks for greasing.
- 2. On 11 May, source observed that a brick building of 3 x 4 meters, 2.5 meters high, was under construction in AAA emplacement No 1. Its roof mounted a U-antenna. Between 5 and 23 May, intensive activity was observed in AAA emplacements Nos 1 and 2 on several days of observation. About 120 to 150 troops with guns and equipment were seen in each emplacement. The T-1 devices werein operation. 35 to 40 seconds after the turning of the parabolic reflector, the guns traversed in the same direction. The exercise was several times repeated. On 23 May, 40 troops left AAA emplacement No 2 for Stammlager Zossen.
- 3. On 11 May, about 120 troops were seen at AAA emplacement No 6. Twelve trucks were seen in a wooden shed. The installation had been surrounded by a board fence during the preceding days. 1
- 4. On 11 May, AAA emplacement No 5 appeared to be tacant. 2
- 5. Source prepared a sketch on the telephone connections in the Wuensdorf-Zossen area. Most of the lines are temporary lines and consist of field cables on wooden poles. 2
- 6. On 22 or 23 May, the occupation of the barracks installation at Schumke Lake (3441) increased by 200 to 300 troops to a total of about 2,300 troops, most of whom wore red-bordered black epaulets and, some, black epaulets. A unit of 200 troops, equipped with about 20 three-axle amphibious vehicles, presumably of model DUK W-353; 4 jeeps and 6 to 8 trucks was quartered in tents between the Sperenberg forestry and Hege Iake. A unit of 100 to 120 troops was quartered in 10 tents at the northern point of Schumke Iake. The burgomaster announced that, effective 5 June 1954, the area around Hege Lake was put off limits probably for 2 tears. The farm near Hege Lake had again to be vecated.
