	is said by local inhabitants that two Polish divisions are to arrive soon in this district.				
6.	In March 1954, an influx of farmers from the Kielce Voivodship was noted in the "Recovered Territories." They were evacuated from their farms and the villages have been occupied by Polish Army units.				
	Comment: Ksiezno village, situated about 20 kilometers north of Glogow, could not be located on the map. In this area there are two places bearing this name. One of them is Pfarmsee, situated in the Krosno Odrsanskie district, and the second, Probstsee, situated in the Swiebodzin district. Both of them however are situated much farther than 20 km. from Glogow.	2
