25X1

1. The import plans for natural rubber have been revised again. According to a Government resolution passed on 24 June 1954, the 1954 imports of natural rubber were to be cut from 11,000 tons to 9,300 tons. The allocations of synthetic rubber are to be increased correspondingly.
2. On 29 June 1954, it was resolved to cut 1954 imports of raw asbestos from 3,000 tons to 2,450 tons. The cuts were made because it was found that the needs for raw asbestos had been exaggerated by GDR consumers.
3. A Government resolution taken on 24 June 1954 calls for the following imports:

Schlauchreifen (tube and tire in one unit)	11,500 units
porous crops	200 tons
rubber threads (sic) 2	140 tons
