- At the end of August 1954, all enterprises under the East German Ministry for Machine Construction had sent in their answers to the changed 1954 Gross Production Plan of 10 July 1954<sup>1</sup>. On the basis of these answers of the enterprises, the Plan underwent another change which now appears to be final. It turned out that the enterprises thought they would be able to put out more production with the material allotments granted them by the Ministry than the Ministry and the State Planning Commission had expected. For this reason, the reduction of production as compared with the original Plan could be partly rescinded. The new, and as it now seems, final Plan for all enterprises under the Ministry for Machine Construction is only about 120 million DME short of the original Plan goal.
- The following is the final Production Plan established on the basis of coordination with the individual enterprises. All amounts are planned 1954 sales prices (Warenabgpreise) for Warenproduktion<sup>2</sup> and are listed in millions of DME:
