1. Comment. The volume of incoming supply shipments at the GSPG food ration supply depot in Satz Korn amounted to 210 carloads and, thus, during the third quarter of 1954 is below the average volume. The average volume amounted to 290 carloads. The rate of shipments coming directly from the USSR was 122 carloads. The cereals from the food factories in Riesa and Wurzen were also produced from grain imported from the USSR. Food ration shipments from the zone, except for salt, were low.

25X1

2. Comment. The shipment-record numbers [redacted] for interzonal ration supply shipments used in August were exchanged [redacted] in September. Return shipments of empty material and equipment to the USSR are given numbers [redacted]
