THIS IS UNEVALUATED INFO 50X1-HUM

1. On the right side of the Elbe (Labe) River, below Melnik, is the village of Steti. A new factory for the manufacture of cellulose and paper is being built in Steti. It allegedly will become the largest paper factory in Czechoslovakia. The project is to be finished by 1958.
2. Across from Steti, on the left side of the Elbe river, is the village of Hnevice. A hill which rises from the Elbe is covered with trees, part of them fruit trees, and in this hill a gasoline storage dump is located. The fruit trees are part of the camouflage. The storage of gasoline in Hnevice is being increased and new underground storage tanks are being erected.
3. The village of Hnevice also serves as a port for Czechoslovak Elbe-Oder Navigation Company (CSPLO) ships. This area, like the storage area, is enclosed by a barbed-wire fence and in the port there are five pumping stations.
4. The storage tank area and the port area are connected by a road and a railroad line goes through both areas. Both areas are guarded by the industrial police.
5. The gasoline storage plant in Hnevice is connected by pipelines with the Stalin Works at Zaluzi near Most.
