COUNTRY East Germany REPORT [REDACTED]

TOPIC Military Activity in Bernau, Beeskow and Strausberg 25X1

EVALUATION [REDACTED] PLACE OBTAINED [REDACTED] 25X1

DATE OF CONTENT [REDACTED]

DATE OBTAINED [REDACTED] DATE PREPARED 17 November 1954 25X1

REFERENCES [REDACTED]

PAGES 2 ENCLOSURES (NO. & TYPE) [REDACTED] 25X1

REMARKS [REDACTED]

This is UNEVALUATED Information

1. At 0630 on 3 November 1954, 20 x 152-mm field howitzers on 10 [REDACTED] 25X1
~~sidetracks~~ with sidetracks were seen at the Bernau freight station. The barrels of the howitzers which were covered projected about 2 meters beyond the protective shield, apparently had muzzle brakes and ~~caliber~~ of about 15 cm. The howitzers were single-tired. A handwheel was on the right side behind the protective shield which was backward bent and had slanting lower corners. The rearward ~~gun-trail~~ crosspieces mounted rods which pointed diagonally upward.
2. At about 1400, approximately 20 soldiers unloaded the shipment. Eight guns had apparently left. Three trucks towing 3 guns and occupied by 5 soldiers each left toward the town. 1
3. On 5 November, the Reiter Kaserne (4041) in Beeskow was fully lighted. ~~Fourteen~~ trucks were seen in the north section of the installation. An undetermined number of artillery pieces appeared to be stored in a vehicle shed. [REDACTED] 25X1
[REDACTED] 25X1
4. A destroyed apartment house was reconstructed and was occupied by officer families. The new buildings at the intersection of Karl Liebknechtsstrasse and Schuetzenstrasse were completed.
5. Three new transmitters, 50 to 60 meters high, were constructed in the Lindenberg-Glienicke area northwest of Beeskow. 2
6. In late October, 20 to 30 Soviet officers were observed in the barracks installation on Straussee (8404) near Strausberg. [REDACTED] 25X1
[REDACTED] the [REDACTED] 25X1
officers presumably participated in a course on chemical warfare. 3

1. [REDACTED] Comment. If the howitzers actually had muzzle brakes, they were 25X1
152-mm model M-1943 field howitzers. The way of loading and transfer to the installation tends to indicate that an arrival of equipment was observed. No information has so far been received on a reequipping of artillery units of the 7th Gds Mecz Div and the 7th Light Arty Brig.

2. [] Comment. The return from the summer camp of the 468th Gds Mort Regt of the 7th Gds Mecz Div on 25 and 26 September was previously reported. [] The observation of artillery pieces in the Reiter Kaserne, which is believed to be occupied only by the mortar regiment, supports a previous assumption, according to which the medium mortar units of the mortar regiments were possibly reequipped with artillery pieces. The motor vehicles [] are believed to belong to the 7th Gds Mecz Div and all but one to the 468th Gds Mort Regt of this division. 25X1

3. [] Comment. Since several officer courses of GSFG were previously held in the barracks installation on Straussee, the information may be correct. 25X1
