Kapen	"	1 B
Kyevitz	empty bags	1 B
Magdeburg	"	1 B
Zaporozhye	"	4 B
Wittenberge	"	1 B

25X1

Comment. The volume of incoming shipments supply at the main depot of the GSFG in Satz Korn reached 355 carloads in October and thus has reached again the maximum volume of January 1954. The supply from the USSR with 250 carloads also surpassed the previous incoming flow of supply to a large extent. The volume of incoming flour was remarkably high. This is due to the fact that the grain deliveries from the USSR to the mills under the grain-delivery program almost stopped in October. The volume of outgoing shipments held the previous level.
