[Redacted]

Comment. Each RBD has 1 permanent way construction materials depot storing rails, switches and ties and 1 signal and telecommunication materials depot. The railroad construction enterprises mentioned are merged in the Reichsbahn Bau Union which centrally controls all railroad construction projects. A tabulation of all railroad repair shops (RAWs) including sub-contracted repair shops for tank cars, namely the Kuehltransit Leipzig and the railroad car factory at Quedlinburg, was transmitted previously. [Redacted] The Stahlbau Dessau mentioned in paragraph 6 is subordinate to the Reichsbahn Bau Union.
