- Colonel Orlov, fnu, has been in command of Puetnitz airfield since December 1954. Two East German Air Force (VdA) majors are permanently stationed on the airfield. The latter are instructors for VdA trainees who are assigned to the airfield for short courses. There is little contact between the Soviet and German personnel. 25X1
- No anti-aircraft guns have been observed on the airfield since the middle of 1954. It is believed that the AA defense of the airfield will eventually be taken over by the VdA.
