1. Comment. Incoming shipments of iron ore and coke consigned to the Eisenhuettenkombinat Ost (Foundry Combine East) at Fuerstenberg/Ost which is served by Ziltendorf station. According to the present report and previous information, a total of 1,636 cars was dispatched to the EKO in June 1955.

25X1

. This number of cars is apparently too low as compared with a previous report on iron ore shipments. Presumably these reports are partial records only.

25X1

2. Comment. Deliveries to the USSR from GDR hydrogenation plants and return of empty tank cars.

25X1

3. Comment. No shipments of rails have been observed since December 1954. Presumably these deliveries contain rails of the heavy type R 50 which are scheduled for the improvement of GDR railroads.

25X1

4. Comment. Shipments to the USSR from the uranium ore mining district in Saxony. The monthly quota of uranium ore shipments is 10,000 to 11,000 tons.

25X1

5. Comment. This shipment may be identical with the previously reported shipment of tanks to Riesa or may be identical with a shipment to Jueterbog.
