Vinfder

- 1. On 6 July 1955, the barracks installation north of Drachhausen (3304) was occupied by 800 to 1,000 soldiers wearing red-bordered black epaulets including 25X1 scale activity was observed at the tank sheds. Some sheds were assumed to have been absent from
- 2. On 13 July, all tank sheds were occupied to capacity. Tanks and SP guns were covered by tarpaulins. 1
- 3. Prior to 13 July, Camps Lieberose (3302) and Schoenhoehe at the Lieberose training grounds were vacant. During the preceding days and weeks, tank, artillery and AAA units, presumably from Fuerstenwalde, Frankfurt/Oder, and the Cottbus area, were repeatedly observed at the Lieberose training grounds. The units concentrated on firing practices and left after periods of 4 to 6 days.
- 4. The following shipments were unloaded in Jamlitz near Lieberose between 6 and 16 July:
  6 July. At 2000, 3 T-34/85 tanks and 3 trucks, which left toward Stakow.
  7 July. At 0800, 14 x 85-mm AA guns, 6 x 120-mm mortars, 20 trucks, and approximately 120 troops, which left toward Stakow.
  16 July. At noon, 12 tanks and 14 trucks with 120 to 150 soldiers, which arrived from Frankfurt/Oder. One truck was loaded from a boxcar, presumably with ammunition.
- 5. Between 0700 and noon on 9 July, the Lieberose-Stakow road was blocked because of artillery firing. At 1700, 20 trucks with approximately 200 soldiers went from Lieberose toward Stakow.
- 6. At 1600 on 13 July, 6 tanks, which were dug in up to the turret, were seen at the Lieberose training grounds. Additional 12 tanks were stored in the woods.

25

hoehe at the Lieberose training grounds were vacant prior to 13 July. Tank, artillery, mortar, and AAA units from the area of the Third and Fourth Gds Mecz Army were apparently transferred to the Lieberose training grounds for 4 to 6-day firing practices. The units presumably bivouacked in the training area.  3. Comment. It could not be observed that elements of the u/i signal unit 25X1 stationed in the Eisenbahnpionier Kaserne in Rehagen left the installation. It could not be determined, whether the unit was subordinate to GSFG or the Third Gds Mecz Army.  4. Comment. Units of the 2nd Gds AAA Div stationed in the Eisenbahnpionier 25X1 Kaserne in Rehagen were transferred to Wustrow for firing practices in 2 shipments on 11 and 12 July.				25X1-
7. On 8 July, the Eisenbahnpionier Kaserne (3381) in Rehagen was no longer occupied to apacity. The vehicle shed, which had usually been occupied by approximately 35 mobile decimeter stations of type N, was only about 65 % occupied.  8. The approximately 8 AA guns, which had repeatedly been seen in the yard, were no longer there. The installation which had been occupied by an estimated 1,000 soldiers quartered between 400 and 500 soldiers wearing red-bordered black epsulasts with signal insignia. Motor vehicles observed included: sedan 25X1 and Brucks  1. Comment. Between 6 and 14 July, the kaserne north of Drachhausen appeared to be occupied as previously. No engineers were seen, however. The 10 to 12 25X1 tanks, which were reportedly absent from the installation on 6 July, were probably at the Lieberose training ground for firing practices. See Comment. Comment. Contrary to observations in 1954, Camps Lieberose and Schoen-25X1 beche at the Lieberose training grounds were vacent prior to 13 July. Tank, ertillery, mortar, and AAA units from the area of the Third and Fourth Gds Mecz Army were apparently transferred to the Lieberose training grounds for 4 to 6-day firing practices. The units presumably bivoucked in the training area.  3. Comment. It could not be observed that elements of the u/s signal unit 25X1 stationed in the Eisenbahnpionier Kaserne in Rehagen left the installation. It could not be determined, whether the unit was subordinate to USFG or the Third Ods Mecz Army the comment. Units of the 2nd Ods AAA Div stationed in the Eisenbahnpionier 25X1 Kaserne in Rehagen were transferred to Wustrow for firing practices in 2 shipments on 11 and 12 July. 7. On 8 July, the Eisenbahnpionier Kaserne (3381) in Rehagen was no longer occupied to expandity. The vehicle shed, which had usually been occupied by approximately 35 mobile decimeter stations of type N, was only about 65 % occupied.  8. The approximately 8 AA guns, which had repeatedly been seen in the yard, were no longer there. The installation which had been occupied by an estimated 1,000 soldiers quartered between 400 and 500 soldiers wearing red-bordered black epsulasts with signal insignia. Motor vehicles observed included: sedan 25X1 and Frucks  1. Comment. Between 6 and 14 July, the kaserne north of Drachhausen appeared to be occupied as previously. No engineers were seen, however. The 10 to 12 25X1 tanks, which were reportedly absent from the installation on 6 July, were probably at the Lieberose training ground for firing practices. See Comment 2.  2. Comment. Contrary to observations in 1954, Camps Lieberose and Schoen-25X1 booke at the Lieberose training grounds were vacant prior to 15 July. Tank, ertillery, mortar, and AAA units from the area of the Third and Fourth 6ds Mecz Army were apparently transferred to the Lieberose training grounds for 4 to 6-day firing practices. The units presumably bivouacked in the training area.  3. Comment. It could not be observed that elements of the u/s signal unit 25X1 stationed in the Eisenbahnpionier Kaserne in Rehagen left the installation. It could not be determined, whether the unit was subordinate to 05F0 or the Third 6ds Mecz Army and the substitute of the 2nd 6ds AAA Div stationed in the Eisenbahnpionier 25X1 Kaserne in Rehagen were transferred to Wußtrow for firing practices in 2 shipments on 11 and 12 July.  25X1	,			
7. On 8 July, the Eisenbahnpionier Kaserne (3381) in Rehagen was no longer occupied to expandity. The vehicle shed, which had usually been occupied by approximately 35 mobile decimeter stations of type N, was only about 65 % occupied.  8. The approximately 8 AA guns, which had repeatedly been seen in the yard, were no longer there. The installation which had been occupied by an estimated 1,000 soldiers quartered between 400 and 500 soldiers wearing red-bordered black epsulasts with signal insignia. 1. Comment. Between 6 and 14 July, the kaserne north of Drachhausen appeared to be occupied as previously. No engineers were seen, however. The 10 to 12 25X1 tanks, which were reportedly absent from the installation on 6 July. Were probably at the Lieberose training ground for firing practices. See Comment 2.  2. Comment. Contrary to observations in 1954, Camps Lieberose and Schoen- 25X1 hoehe at the Lieberose training grounds were vacant prior to 13 July. Tank, artillery, mortar, and AAA units from the area of the Third and Fourth Gds Mecz Army were apparently transferred to the Lieberose training grounds for 4 to 6-day firing practices. The units presumably bivouacked in the training area.  3. Comment. It could not be observed that elements of the u/i signal unit 25X1 stationed in the Eisenbahnpionier Kaserne in Rehagen left the installation. It could not be determined, whether the unit was subordinate to GSFG or the Third Gds Mecz Army.  4. Comment. Units of the 2nd Gds AAA Div stationed in the Eisenbahnpionier 25X1 Kaserne in Rehagen were transferred to Wustrow for firing practices in 2 shipments on 11 and 12 July.  25X1	<u>laets with signal</u> ir	nsig <u>nia.4 Motor vehicles obs</u> e	erved included: s	edan 25X1
to be occupied as previously. No engineers were seen, however. The 10 to 12 25X1 tanks, which were reportedly absent from the installation on 6 July. were probably at the Lieberose training ground for firing practices. See Comment 2.  2. Comment. Contrary to observations in 1954, Camps Lieberose and Schoen- 25X1 hoehe at the Lieberose training grounds were vacant prior to 13 July. Tank, ertillery, mortar, and AAA units from the area of the Third and Fourth Gds Mecz Army were apparently transferred to the Lieberose training grounds for 4 to 6-day firing practices. The units presumably bivouacked in the training area.  3. Comment. It could not be observed that elements of the u/i signal unit 25X1 stationed in the Eisenbahnpionier Kaserne in Rehagen left the installation. It could not be determined, whether the unit was subordinate to GSFG or the Third Gds Mecz Army.  4. Comment. Units of the 2nd Gds AAA Div stationed in the Eisenbahnpionier 25X1 Kaserne in Rehagen were transferred to Wultrow for firing practices in 2 shipments on 11 and 12 July.  5.	and tru	ıcks		
to be occupied as previously. No engineers were seen, however. The 10 to 12 25X1 tanks, which were reportedly absent from the installation on 6 July. were probably at the Lieberose training ground for firing practices. See Comment 2.  2. Comment. Contrary to observations in 1954, Camps Lieberose and Schoen- 25X1 hoehe at the Lieberose training grounds were vacant prior to 13 July. Tank, ertillery, mortar, and AAA units from the area of the Third and Fourth Gds Mecz Army were apparently transferred to the Lieberose training grounds for 4 to 6-day firing practices. The units presumably bivouacked in the training area.  3. Comment. It could not be observed that elements of the u/i signal unit 25X1 stationed in the Eisenbahnpionier Kaserne in Rehagen left the installation. It could not be determined, whether the unit was subordinate to GSFG or the Third Gds Mecz Army.  4. Comment. Units of the 2nd Gds AAA Div stationed in the Eisenbahnpionier 25X1 Kaserne in Rehagen were transferred to Wultrow for firing practices in 2 shipments on 11 and 12 July.  5.	1. Comment. Betwe	een 6 and 14 July, the kaserne	north of Drachh	ausen appeared
Comment. Contrary to observations in 1954, Camps Lieberose and Schoenhoehe at the Lieberose training grounds were vacant prior to 13 July. Tank, artillery, mortar, and AAA units from the area of the Third and Fourth Cds Mecz Army were apparently transferred to the Lieberose training grounds for 4 to 6-day firing practices. The units presumably bivouacked in the training area.  3. Comment.
