1. Comment. Probably express train coaches delivered by GDR railroad car factories to the USSR. 25X1

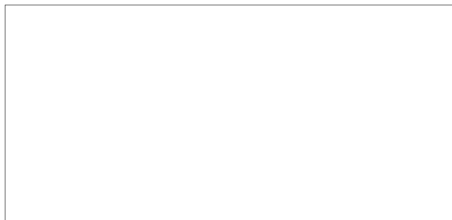

2. Comment. Shipments to the USSR from the uranium-ore mining district in Saxony. The monthly quota of uranium ore shipments is 10,000 to 11,000 tons. 25X1

3. Comment. Continued shipments of air-force ground personnel to Weizow and Gross-Doelln airfields. The shipment observed on 30 July probably identical with a shipment consigned to Weizow 25X1

The other three shipments were apparently registered for the first time when crossing the border. A total of 10 shipments have been reported so far. 25X1
 In the early morning of 29 July, one shipment of air-force ground personnel arrived at Gross-Doelln. This shipment was possibly identical with the one which was observed on 28 July. 25X1

4. Comment. Incoming shipments of raw materials for the Eisenhuettenkombinat Ost (Iron Foundry East) (EKO) at Fuerstenberg/Oder. 25X1

5. Comment. This tank (T-54) shipment is probably identical with a shipment 25X1
 destined to Forst Zinna which was observed 25X1
 on the same day. 25X1
