1. [redacted] Comment. The shipments contained ammunition from the USSR for the Soviet ammunition depots. The shipment to Magdeburg-Buckau on 27 June 1955 was previously reported. [redacted] The shipment to Bad Saarow on 29 June 1955 probably went to the Pfaffendorf ammunition depot. The shipment to Muellrose on 4 July 1955 possibly contained tank spare parts for the Muellrose GSFG depot rather than ammunition.
2. [redacted] Comment. The shipments contained export goods from the GDR motor vehicle plants.
3. [redacted] Comment. The shipments contained crude oil from the USSR for the hydrogenation plants in the GDR. Most of the shipments were previously reported.
4. [redacted] Comment. The shipments contained fuel for fuel depots of the army and air force and for airfields of the Twenty-Fourth Air Army. Some of the shipments were previously reported.
5. [redacted] Comment. The shipments contained uranium ore which was delivered to the USSR from the Saxony Uranium Mining District.
6. [redacted] Comment. The shipments belonged to the motor vehicle exchange movement. Except for the flatcars used, there are no indications that the shipments on 1 and 2 July 1955 contained motor vehicles from the USSR.

11. [Redacted] Comment. The shipments have not been identified. They possibly contained military goods (motor vehicles, aircraft crates ?) which were returned to the USSR. The shipment from Jueterbog-Altes Lager on 12 August 1955 probably contained crated aircraft since a crane for loading of eight-ton goods (crates) was requested to be made available at the Jueterbog-Altes Lager railroad station and the dispatcher stated that crated aircraft were to be loaded.
