1.  Comment. Iron ore imports from the USSR destined for BKO Fuerstenberg. 25X1
2.  Comment. Continued incoming shipments of trucks and sedans within the framework of the motor vehicle exchange program. 25X1
3.  Comment. Uranium ore shipments from the uranium ore mining district in Saxony. 25X1
4.  Comment. Export deliveries by GDR hydrogenation plants. 25X1
5.  Comment. Probably incoming MiG-17 shipments within the framework of the current re-equipment program. 25X1
6.  Comment. The mortars shipped on 29/30 September possibly had calibers of 160 mm and more. Such mortars were shown at the last parade in Moscow. The supply of these large mortars to the army has been expected for a long time. The assumption was supported by the fact that outgoing shipments of mortars with calibers of 120-mm were observed previously.  25X1
