MEMORANDUM FOR: [REDACTED]

SUBJECT: PSB Staff Meeting

25X1A

1. [REDACTED] reviewed the five items on the agenda.

2. Concerning Item 1 (Status of Reorganization Plans), it was announced that General Smith has suggested a redraft of C. D. Jackson's letter which was circulated last week. Copies of General Smith's comments are to be circulated and will be given to you as soon as received. [REDACTED] also commented that Nelson Rockefeller has seen President Eisenhower and it was reported that the President's idea is that the IIA be "fixed up" [REDACTED]'s phrase) under the NSC.

3. The one other item of note brought up at the meeting was [REDACTED] report on the brain-washing situation on which [REDACTED] is reporting in detail. I can only add that [REDACTED] reported that Mr. Allen Dulles is to give a speech this Friday at Hot Springs to a Princeton Alumni group covering this subject.

4. On the subject of the Bronk Committee, it was my impression that [REDACTED] attitude is to see if the scientists will sign a report to be prepared by the Working Group, of which you are a member. I believe [REDACTED] in his separate memo gives his objections to this procedure.
