MEMORANDUM FOR THE RECORD

SUBJECT: Project Folder - Overseas Station Questionnaire Data,  
Construction and Procedure(s) for Use

The material contained in this project folder represents a detailed investigation and collection of information which would be useful for constructing questionnaires which could be applied to collecting a total picture of any given foreign area, post, station, city, etc.

The nature of the information gathered by this project could be applied to any situation (government or private industry) where reports are needed to brief persons scheduled to depart for a specific foreign area.

The project data will NOT become outdated for several decades and should be retained accordingly for possible future application to similar studies or projects.
