MEMORANDUM FOR: Chairman, CIA Career Service Board
FROM: Chairman, Professional Selection Panel
SUBJECT: Current Status of the Panel

1. The Professional Selection Panel on 26 May 1954 held its 50th meeting at which time all business on hand was concluded. Attached for your information is a copy of the minutes of the meeting.

2. The Panel has completed its review of cases previously heard. This included all cases acted on favorably by the Panel but which, according to its standard procedure, required that a final review be made prior to the expiration of the subject's trial service period.

3. While the administrative machinery of the Panel can continue to function, the Panel has no reason to hold any further meetings unless new business is sent to it.

4. The Panel has requested that the Secretariat compile a final report which will be presented as soon as it is ready. Should the services of the Panel be needed for any reason prior to activation of the CIA Selection Board, it can be reconvened as necessary.
