SUBJECT: MBFR Monitoring Capability Study, Part I, Target Scoring List

1. The attached target list was developed by DIA(DI-3) and CIA(OSR) in support of Part I of the NIO sponsored series of studies on MBFR monitoring capabilities. The targets are expressed in terms of ground force related organizations and installations of importance to MBFR monitoring requirement satisfaction. This target list does not include all of the ground force targets which would be of interest for MBFR monitoring purposes, however; for the purpose of this study, these targets are believed to be a good and sufficient sample from which to accurately extrapolate the performance of current collection resources against basic MBFR surveillance requirements. The criteria and considerations given to structuring this target list were as follows:

a. Category and Number of Targets: The categories of targets to be scored are:

(1) All Soviet and Indigenous Maneuver Divisions and Regiments and their headquarter facilities in East Germany, Poland and Czechoslovakia [REDACTED] 25X1D0a

(2) All located Soviet and Indigenous FROG Battalions and SCUD Brigades in the same countries [REDACTED] 25X1D0a

(3) All major equipment depots and equipment storage facilities through which new equipment or large new shipments of equipment would pass [REDACTED] 25X1D0a

SECRET

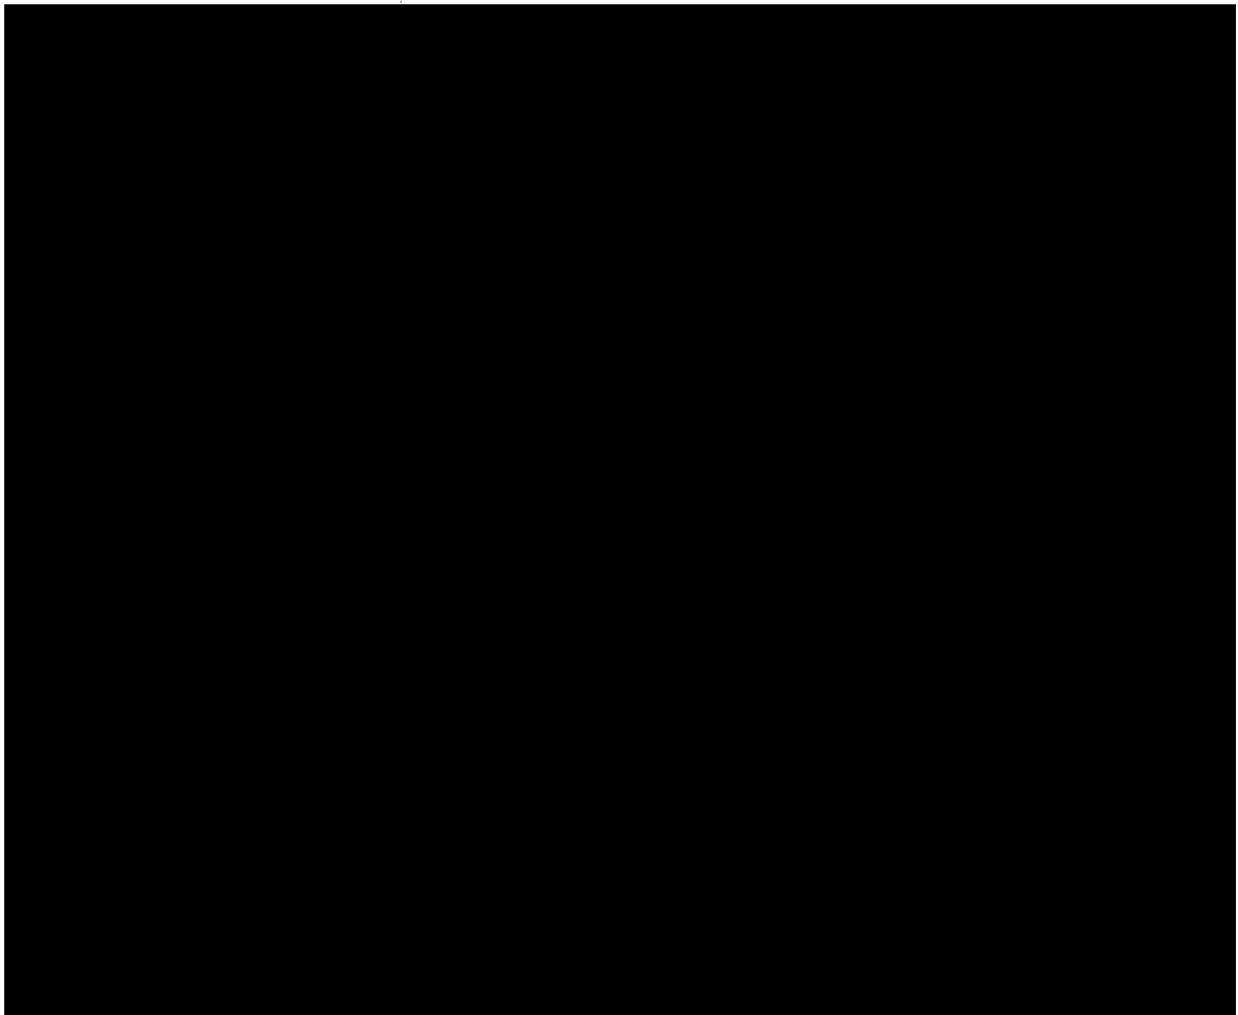

(4) All primary railroad change of guage points on the Soviet system linking the USSR with the NGA [REDACTED]

25X1D0a

(5) Primary air facilities used as air supply and troop rotation terminals [REDACTED]

25X1D0a

25X1D0a

SECRET

25X1D0a
