DEC 1956

MEMORANDUM FOR: Director, National Security Agency

SUBJECT   :   Frequency Usage

1.   Reference is made to your letter of
21 November and in particular to the conclusions
listed for consideration resulting from the meeting
of NSA and CIA representatives on 6 November 1956.

2.   This Agency concurs in the substance of
paragraphs 2(a) through 2(h) and is ready as you
suggested to implement these at an early date.

3.   With respect to the idea embodied in
paragraph 2(i) concerning the collocation of NSA and
CIA frequency usage units, it is believed that decision
should be postponed until experience has been obtained
in the operation of the computer, and other practical
problems have been studied.

4.   It is suggested that during the period of
development of the NSA computer control program, CIA
personnel be assigned at NSA for the purposes of
studying mutual programming needs and collocation
problems, as well as facilitating the immediate
exchange of data between existing CIA and NSA files.

5.   Dr. James M. Andrews, with the assistance
of other members of the Agency's staff will be glad
to work with [   ] in this matter.
